LEW SHANK CRUSHES OBSTACLES IN PATH

Latest Triumph of Erstwhile Comedian is Call to Precinct Committeemen to Meet

SIGNIFICANCE OF THE CALL

Indianapolis July 20—With steam roller persistence, Lew Shank is rushing obstacles in the path of party leadership here.

The latest triumph of the erstwhile comedian who is seeking to become mayor of Indianapolis again was the call for a meeting of precinct committeemen, sent out by Irving Lemaux, republican city chairman who repudiated Shank during the primary campaign. This was taken to mean that Lemaux will yield to the pressure of Shank and tender his resignation.

Another section of the old guard crumpled before Shank when the Marion club directors voted to reinstate Shank as a member. The mayoralty candidate ceased to be a member back in 1917 over a political squabble. He said at the time that he would take a cigar for his stock in the club, purely a political organization to further the candidacies of the republican party.

Since the republicans of Indianapolis named Shank to head their ticket, he made application for reinstatement. Action of the application was held up for several weeks because of hostility of several directors to Shank to defeat the regulars in the primary.

TRIED TO BEAT THE TRAIN

Laporte, Ind., July 20—As a Baltimore and Ohio train neared the crossing at Sultman, Ind., an auto tried to cross the tracks in front of the train. The dead are: Edward Zugbaum, 35, farmer. Josephine Zugbaum, 2, his daughter.

The injured: Harry Zugbaum, 14, taken to hospital.

MYSTERIOUS SHIPS SEEN OFF EAST COAST

Under Cover of Darkness Vessels Discharge Cargo After Cargo of Bottled Goods

IN GIGANTIC BOOZE TRAFFIC

Fairfield, Conn. July 20—Mysterious ships, their hulls painted a dull gray have been seen maneuvering off the Connecticut coast, it was reported here today.

Under cover of darkness, the vessels discharge cargo after cargo of bottled goods and have succeeded in making this section the center of a gigantic booze traffic with operations extending throughout the east, according to the reports. The vessels which are of low cutter design not more than 45 feet in length and which travel at high speed, were reported to operate on moonless nights with the aid of lanterns.

Scores of figures clad in oil skins, paddling row boats unload the cargoes from the vessels and pass it along to waiting auto trucks.

Continued from Page One bringing up the question of the return of Shantung to China by Japan in the conference.

2—The Japanese government is understood to have presented a note or communication to Secretary of States Hughes suggesting a compromise for settlements of the question of the American protest against Japan's mandate over the island of Yap.

In her acceptance of the proposal to discuss armaments, Japan asked whether only broad principles and policies, or specific questions were to be taken up in connection with the far east. Shantung would be regarded as a "specific" problem.

It also was learned for the first time today just what the attitude of the United States government is on the point whether only principles and policies or specific matters are to be taken up.

Secretary Hughes is believed to have made it plain to Japan that the American government feels that not only should "principles and policies"

Farmer's "Open Door" Policy Proves to be His Undoing

Columbus, Ind., July 20—Clarence Spurgin always was a trustful old soul. His was an "open door policy" with the welcome sign painted in glowing letters.

But the burglars didn't know about Clarence's disposition. They forced a window to the house without knowing the doors were unlocked. They went out a door, all right, carrying \$12 in cash and other articles.

From the house they went down to the garage and very easily pushed back the unlocked door. Several cans of gasoline and oil were handy and they poured this into the Spurgin automobile which also was unlocked.

Clarence and his family slept through it all, discovering their losses when they reached into the silverware drawer at breakfast time. They drove the old mare to town to notify the police.

UNITED STATES IS UNDER OBLIGATIONS

This is Construction Placed on Situation Regarding Interest Due From Europe, Mellon Says

QUOTES FORMER SECRETARY

(By United Press)

Washington, July 20—The United States government considers itself "under obligations" to foreign debtors to defer interest payments on their debts, Secretary of the Treasury Mellon today told the senate foreign relations committee.

Mellon said he accepted as a binding obligation an understanding reached in 1919 in negotiations between a United States representative named Rathbun and a British representative named Blackett that the interest would be deferred until 1922 at least. Former Secretary Houston said such an understanding or promise exists, Mellon said, and he took Houston's statement as binding. Mellon himself had no conversation with other governments regarding extension of deferment.

SHOOT AT A COMMISSIONER

Charles Reynolds Enraged Because of Being Denied Compensation

(By United Press)

Buffalo, N. Y., July 20.—Charles Reynolds, enraged at Deputy Commissioner Charles Bletchey of the state industrial commission for not allowing him compensation under the workmen's compensation ruling, shot at the commissioner three times today in the supreme court building, equity department, today.

Anthony Addace, who was testifying at the time of the shooting, was struck by a stray bullet at the base of the skull and probably was fatally wounded.

The commissioner dodged behind the bench and was not hit.

SUIT FOR PARTITION

Anda Gallimore this afternoon filed suit in the circuit court against Perry Collins, et al., the complaint being for partition of real estate. According to the complaint the plaintiff seeks to have a lot, business property and a residence in Arlington sold and the proceeds divided among the heirs who claim an interest in the lands. The plaintiff alleges that the property is not dividable and should be sold and the money divided. John A. Tittsworth, attorney, represents the plaintiff in the suit.

New State Patrolmen Begin Their Work And Issue Warning

Motor Policemen, Twelve in Number, Start New Duties of Watching For Violators of License Laws and Certificate of Title Violations. New Police Have Statewide Power. Local Incident is Investigated

Indianapolis, July 20.—Mr. Hoosier motorist, you had better beware of the state automobile policemen. Twelve policemen have been appointed by the state automobile license department to patrol the state and watch for people who are operating expensive cars under licenses which were bought for flivvers or vice versa.

Licenses which are purchased for high priced cars can be used on the car for which they are purchased and a license bought for a flivver can be used only on a flivver.

This according to Howard McClellan, head of the automobile license department, will assist the state in running down the cars which are stolen.

Many times, when a car is stolen the thief changes only the license plates.

These officers, will also watch for those who do not purchase certificates of title, which every auto owner is required to obtain before September first.

The certificate of title is practically the same as registering a deed, with the county auditor, it enables the owner to register his car, to protect it from thieves.

These officers, are allowed to work

Rushville women, who heard her, were very much delighted with her lectures and demonstrations. The work will come at four o'clock each afternoon of the week until Friday, and will consist of lectures and complete demonstrations. Recipe books will be furnished and it is certain that every one will be pleased and delighted with the class work conducted by Mrs. Houston. She has appeared on many chautauqua platforms and to her skill and expertness in demonstration, she adds rich charm of voice and manner of delivery. All who attend her class will find the work both entertaining and profitable. No Rushville woman who is interested in the science of Home Economics can afford to miss any hour of this work, it is believed by chautauqua officials.

BOMBING TESTS POSTPONED

in every county in the state and are not like the county sheriff, who when he comes to the county line is forced to stop. The state police can go any place within the state to trace stolen cars, McClellan said.

M. J. Glenn, cop number 3, breezed into Rushville Friday afternoon on his four cylinder motoreycle, his mission being to investigate a complaint near New Salem. Patrolman Glenn said that a man living in that vicinity had been reported of failing to take out license plates for two years, and the officer was going to investigate the matter.

While here Mr. Glenn also stated that after September first, strict obedience of the certificate of title law would be in effect. Patrolman Glenn will have several counties, including Rush on his "beat," and he expects to spend much time here.

GRAND JURY MEETS FOR LAST SESSION

Illinois Investigators Reported to be Ready to Vote on Indictment in Graft Case

SMALL PRINCIPAL FIGURE

Springfield, Ill., July 20—The grand jury, investigating alleged juggling of \$10,000,000 in Illinois state funds, met today for what is expected to be its final session.

The investigators, after hearing two additional witnesses were reported ready to vote on whether or not indictments should be returned against Governor Len Small and Lieutenant Governor Fred E. Sterling on charges of misuse of the public funds while occupying the position of state treasurer.

Edward Miller, present state treasurer and his assistant, Harry C. Luehrs, were called when the investigation was resumed.

Governor Small, his political friends and his foes awaited the report of the grand jury anxiously. In case he is indicted, his friends stated he was prepared to go into court and give whatever amount of bail is demanded and ask immediate trial.

Possibility of the greatest political sensation in years, rested with the grand jury. Indictments were prepared for presentation to the grand jury, under the laws governing conspiracy, embezzlement and malfeasance.

They were prepared under the direction of James H. Wilkerson, Attorney General Brundage and States Attorney Mortimer who have been in charge of the probe.

It is up to the grand jury to decide whether the evidence has been sufficient to warrant their sanction.

AIM LEGISLATION AT KU KLUX KLAN

Texas Legislators Propose Bills to Break up Organization, an Invisible Empire

ACTIVITIES TO BE PROBED

Many of Assaults, Whippings and Tar and Feather Parties Attributed to Klan

(By United Press)

Austin, Tex., July 20.—The southwest today faced the problem of an invisible empire within itself.

The Ku Klux Klan, originated in ancient Scotland and revived in the turbulent "carpet bagging days" of the old south, faced two proposed legislative resolutions, one aimed generally to remove the cause for its existence in Texas and another to investigate its object and actions.

Technicalities of law handicapping prosecutions of criminal cases were described as the "cause of existence."

The resolutions were to be introduced in the Texas Senate asking laws be passed to break up the Klan which has grown in a few months to what is admitted to be the strongest secret organization in the new southwest.

Senator Edgar Witt said he would specifically name the Klan and organizations declared not bona fide, but which have taken its name in staging demonstrations and punishing individuals for infractions of "moral laws."

Police and other peace officials following an investigation, declared today that many of the assaults, whippings and tar and feather affairs of the last few months throughout the southwest are not the work of the bona fide Klan, but the work of small groups of men who worked under the guise of the White Masks of the organization.

Masked men and others have participated in 34 demonstrations in Texas this year. These demonstrations have included everything from gifts to charity, to tarring and feathering a white woman after she had been stripped of her clothing. She stood naked before her abductors—men, as they poured the tar upon her.

Vanity Not a Matter of Sex, Says Head of Photographers

Buffalo, N. Y. July 20—Vanity isn't a matter of sex, according to President Howard D. Beach of the Photographers Association of America which met here today.

"Men are as vain as women" Beach declared.

"Men are just as anxious as women to obtain the pose which shows up their good points."

"Cut out the freckles, 'Can you get rid of my double chin?' and 'See if you can't make me look lighter' are expressions that come from male patrons as often as from the female."

"The men fuss with their ties, their hair and their mustaches almost as long as women do with their hair and their gowns."

"It's hard to flatter a patron but we can add some improvements in the way of thinning fat faces, filling thin ones and putting in missing eye brows."

Active steps have been taken toward the construction of a pipe line from Harve to Paris to permit American fuel oil to be discharged at the port and pumped to the capital.

SHE COULDN'T EAT ANYTHING SOLID

Fort Wayne Woman Was Almost Starved to Death—Eats Anything Now

Actually I lived on broth, hot milk and other liquid food until I was almost starved to death. Now I eat three hearty meals a day, just anything and everything I want and never have the slightest distress afterwards. This change in my condition is due to Tanlac and nothing else," was the emphatic statement of Miss Anna Lutz, 204 First St., Fort Wayne, Ind.

"Nobody knows how I suffered in past years on account of indigestion, at least only those who have had this awful trouble the way I did. I couldn't eat any solid food, as the agony I had to endure afterwards was unbearable. Up until the time I took Tanlac I was growing weaker and thinner every day, and I lived in dread of what the future might hold for me."

"It certainly was a delightful surprise to me when I found that Tanlac was just the medicine I had been needing all along. It was simply wonderful the way I improved almost from the first dose and soon all my friends and relatives were commenting on the big change in my appearance. I don't believe there ever was a medicine made on earth the equal of Tanlac."

Tanlac is sold in Rushville by F. B. Johnson Drug Co. and by leading druggists everywhere. Advertisement

Touring Hazards

Touring hazards in the country are practically as numerous and as dangerous as they are in the city streets. And the dangers of driving on country roads will increase unless every effort is made to lessen the chances of accident.

Recognizing that this condition exists, the Hoosier State Automobile association has issued a set of "don'ts" which will undoubtedly reduce the number of accidents at road intersections and prevent many fatalities which are being reported. The "don'ts" may be studied by any driver to his advantage.

1. Don't go sailing through a blind country road intersection at full speed. Slow down to a control

speed. It is not sufficient to sound your horn. Another car may be speeding along the intersecting road. You take your life in your hand every time to violate this injunction.

2. Don't turn corners rapidly, either in city, town or country. Give the other fellow a change, always.

3. Don't take it for granted that no one else is approaching around the corner. Automobiles are too thick now in Indiana to bank on that chance.

4. Don't try to hog the center of the road. If the fellow behind wants to go around you, lay over. Above all do not attempt to do any racing. The State Highway Commission issues a warning that many of its highways have a soft "shoulder" and if the driver gets over too far on this shoulder his car is liable to slip off into a ditch.

5. Don't fail to slow down to 10 or 12 miles an hour in passing through incorporated towns and cities, and close your muffler. It would be better if you keep that muffler closed all the time.

6. Don't fail to dim your lights in meeting another car at night. See to it that your lights are not "cocked up" or askew, but in strait line and down on the road. Don't count on so-called lens dimmers protecting the other fellow—the most of them fail to do this.

7. Don't fail to slow down when you come to fresh or nearly fresh gravel. The undertakers are waxing fat on the failure to observe this common-sense rule.

"Finally," say the bulletin, "remember to drive sensibly and with a Christian-like respect for the other fellow. The city of Wabash, Ind., has a splendid idea in its signs on main entering streets which read: 'City Limits; Drive Sensible'. If motorists will just drive sensibly the

major part of the traffic troubles everywhere, in city, town or country would be eliminated and many many lives would be saved annually."

The Hoosier State Automobile Association also calls attention of township trustees to the fact that a new law requires them to see to it that motorists everywhere insist that road intersections are removed, and that all shrubbery, hedges, trees, etc are trimmed so a view of the cross road may be obtained. It is urged that motorists everywhere insist that their township trustee get busy now and comply with this law, which was secured through the influence of the state association.

Open The Home Door

It would seem that rather too much stress is being placed upon the importance of our foreign trade.

What we need most is an extension of trade at home, among our own people.

Certain manufacturing and exporting circles complain that our high wages and excessive cost of raw materials, together with the shrinkage, in value of foreign money has seriously impaired our foreign trade.

But what of that?

If we in America were the only people on earth would we collapse or even suffer because of the lack of other peoples with which to trade? Not a bit of it.

We would simply learn to produce everything we need and use up everything we produce. We would create a more equitable system of marketing, of barter and exchange. We would speedily develop into a nation capable of producing every-

thing our climatic conditions require.

Then why worry?

If we could do these things as a nation unto itself and be satisfied, what is to prevent our doing the same now, even as one nation among the many nations of the earth?

Since we are in no sense dependent upon other nations for our sustenance, why twiddle our thumbs and hemoan the loss of our vanishing foreign trade?

It is only a calamity to those who imagine it as such.

The Filipinos are anxiously awaiting the day when the United States will grant them their independence, which leads a fellow to believe that some people are never so contented as when stirring up discontent. Independence for the Filipinos will mean renewed strife, disintegration, and final annexation by some foreign power.

Mr. Harding's world parley plan is reported to be pleasing to foreign governments. The world will breathe more freely when it has something more tangible than a report to base its faith upon.

The human body is like a highly elastic piece of rubber. It can be stretched to great lengths, but once broken it is beyond repair.

The things that must be done should be the ones that are first done. There is plenty of time for the rest.

Some people race through life until they reach the brink of the grave. Then the brakes refuse to work.

If exercise is the road to good health some of us ought to live a thousand years.

Some men go up in life like a rocket and out like a dud.

ATTACKS WAR DEPARTMENT

Washington, July 20.—Chairman Peters of the House Bergdoll committee today attacked the war department for what he called lax methods in ordering to Washington Major Bruce Campbell, named by Mrs. Emma Bergdoll as the man who demanded \$100,000 from her "to fix higher ups" and obtain the release of her slacker son.

(New York Evening Post)

We note with only modified horror that a fell conspiracy is under way to deprive the League of Nations of a living and drive her into the cold, cold world. We are told that Japan and the United States are engaged in direct negotiations concerning Yap, Shantung, immigration, and alien land ownership—without the aid of the League of Nations. From Washington comes the news of a Congress growingly insistent upon armament discussions with Great Britain and Japan—without the aid of the League of Nations. France is discussing with Germany the reconstruction of the devastated regions and the formation of an economic entente—without the aid of the League of Nations. Mr. Hughes uttered a strong word for diplomacy in the open such as we have been carrying on—without the aid of the League of Nations. Public opinion in this country and in Great Britain is increasingly alive to what can be done or world peace by these two countries united in friendship—without the aid of the League of Nations.

Other enemies of the League are no doubt at work. We shall perhaps be confronted with plans for the international regulation of labor, for the international promotion of health for the protection of women and children—without the aid of the League of Nations.

Such are the cruel blows directed against the Leagues from every quarter. We may yet witness the culminating atrocity in the form of an Association of Nations for the Prevention of War—without the aid of the League of Nations. The sad prospect confronts us of the League sitting at Geneva, twiddling her thumbs because the nations, "directly" among themselves, have deprived her of a job. Well—

BEER REGULATIONS SOON
Washington, July 20.—Unless congress takes action within a few days on the bill to prohibit use of beer as medicine, regulations governing the manufacture and use of beer as such will be issued and put into effect David H. Blair, commissioner of internal revenue said today.

"BLACK SOX" AT THROAT OF BURNS

Indicted Chicago Ball Players Deter-
mined to "Get" Former Leaguer
Who Turned State's Evidence

CROSS EXAMINATION OPENS

Burns Admits Ban Johnson, Presi-
dent of American League, Paid
Expenses of Trip Into Mexico

(By United Press)

Chicago, July 20.—"Black Sox" ball players, on trial here for throw-
ing the world's series with Cincin-
nati in 1919, like a pack of hungry
wolves today were at the neck of
Bill Burns, confessed base ball re-
negade who admitted plotting the
throwing of the series and has turned
state's evidence.

His seven former team mates who
are on trial, had made threats to
"get" Burns because of his attitude
in the trial. "Black Sox" attorneys
began cross examination of Burns
today when the state closed its
case.

Burns admitted on cross examina-
tion that he had gone to Mexico af-
ter he had been indicted by the grand
jury here and that Ban Johnson,
president of the American League,
had paid his expenses while he was
traveling around.

He admitted going to the world's
series last year but said that he never
attended a game.

"I didn't want to get mixed up in
the crowds," Burns said.

Burns, testified today on direct ex-
amination how gamblers tried to
double cross players from whom they
had bought the 1919 world series.

"Before the third game I went to
Abe Attel," said Burns.

"I asked him for the \$20,000 he
agreed to pay for the first game.

"He said \$10,000 was enough and
that no more could be paid by Ar-
nold Rothstein, a New York gambler,
as he had \$300,000 out in bets."

"Attel took me to a room where
there were several gamblers. He
lifted up a mattress and I took \$10-
000 which was underneath.

"I was told Rothstein kept a wire
open all of the time between New
York and Cincinnati during the ne-
gotiations and also during the game
to keep informed on how things were
going."

The defense attorneys objected
continuously as Burns told his story
in a matter of fact way.

"When I took the \$10,000, I told
Attel I didn't think the players would
accept it," Burns continued.

"I tried to get Bill Maharg to take
it to them but he wouldn't so I did.

"As I went from the gamblers
room to the players room, I met Kid
Gleason, White Sox manager.

"Risberg, McMullin and other
players were in the room. Cicotte
and Gandil came in later.

"The players asked me if I had
double crossed them.

"I told them \$10,000 was all I had.

"I said I hadn't double crossed
them at all, but brought all the mon-
ey I could.

"I gave them the money and asked
about the game next day.

"I told them Attel wanted them to
win the third game because the odds
were going against Chicago.

"He wanted small odds so they
could bet on Cincinnati to win the
series."

"When you first met Cicotte in
New York, what conversation did you
have?" States Attorney Gorman
asked.

This question led to bitter objec-
tion by defense attorneys who held
the state had no right to ask ques-
tions of conversation held in New
York. A recess was declared while
the lawyers and Judge Friend argued
the point.

The judge upheld the contention
of the defense.

"When did you arrive in Chica-
go?" Gorman asked.

"On the morning of the third
game," Burns answered.

"I met Attel in the lobby of the
Hotel Sherman. He asked me to find
out about the third game."

Q.—"What did you do?"

A.—"I called Gandil up and asked
him about the third game."

Q.—"What did he say?"

A.—"He said it was going the same
way as the other two."

Q.—"Did you see Attel again?"

A.—"Yes, I told him what Gandil
had said."

Q.—"Did you see Attel after the
third game?"

A.—"Yes, I met him shortly after

Watching The Score Board

Yesteray's hero—Tony Boeckel.
The Braves third base man hit a
homer in the ninth inning and beat
the Cards 3 to 2.

Ainsmith threw wild trying to
catch Ruth on the bases and the
Bambino scored with the run that
gave the Yanks a 6 to 5 win over
the Tigers.

Erickson's wildness allowed
Cleveland to beat Washington 6 to
4. Steve O'Neil worked behind the
plate for the first time since he was
hurt.

Hollock's pass, Kelleher's triple
and Grimes' sacrifice fly in the 13th
inning gave the Cubs a 3 to 1 win
over the Robins.

Roush's homer in the eighth helped
the Reds beat the Phils 6 to 4. Ge-
ary, a rookie pitched for the Reds.

John Collin's single in the third
drove in the run with which the Red
Sox beat the White Sox 1 to 0.

With two down in the eighth, Jac-
obsen singled and Severoid and Ger-
ber doubled, the Browns beating the
Athletics 5 to 4. It was five straight
for the Browns.

The Pirates mauled four Giant
pitchers and won ten to one.

the game was over. Attel said he
and Bennett lost a lot of money be-
cause they bet the Sox would lose
and they won.

Q.—"Was anything said about the
other games?"

A.—"Later Attel, Bennett and I
talked about the other games."

Q.—"What did Attel say?"

CARPENTIER IS NOT EXPECTED TO OBJECT

Believed He Will Sign Contract For
Twelve-Round Bout With St.
Paul "Cruiser"

BOTH TO WEIGH 175 POUNDS

(By United Press)

New York, July 20.—The Gibbons-
Carpentier fight will be "on" just as
soon as the Frenchman lets Tex
Rickard know that the St. Paul
"cruiser" is all right.

The match, however, is made and
the Frenchman hardly will raise any
objections to Rickard's selection.

The contract hasn't been signed,
but the terms will call for 12 rounds
if the bout is staged in New Jersey
and fifteen rounds if it comes off in
New York.

Both are to weigh 175 pounds.

Gibbons will train on fights, Ed-
die Kane, his manager, said today.
He is now booking him for an exten-
sive summer campaign. Rickard
would like to have the bout on Col-
umbus day.

Rickard is also working on a La-
bor day match for his Jersey City
arena. Bill Brennan is the tentative
selection.

Rickard hasn't secured Dempsey's
consent yet. Brennan is handled by
Leo Flynn, match maker at the Gar-
den and Flynn will match him with
anyone if the purse is high enough.

Rickard wanted Brennan and
Gibbons but Flynn asked for \$45-
000 for Brennan's end and Rickard
nearly passed out.

THIS TIME LAST YEAR

Ruth hit his thirty-first home
run against Faber of the White
Sox, at the Polo Grounds. Chi-
cago scored four in the ninth,
winning 5 to 3. After getting a
seven-run lead, Cleveland bare-
ly defeated Boston 9 to 8 in
the 11th.

A.—"Attel said he would put up
\$20,000 on the fourth game and if
the Sox lost, the players would get
a total of \$45,000.

The "go-between" then said he
went back to the players with Attel's
new proposition.

Q.—"Did you meet the players?"

A.—"Yes, I met Gandil."

The regular meeting of the Rebekahs will be held Friday evening at the usual hour. A good attendance of the members is urged.

The Lurline Council, number 296, degree of Pocahontas will meet in regular stated meeting Thursday night at the Red Men hall, and all members are asked to attend the meeting.

The Always Present Class of the Main Street Christian Sunday school will enjoy a picnic Thursday evening at the home of Mrs. Ray Sample north of town. All members of the class are urged to attend.

Mrs. R. P. John of Greencastle, Ind., and Mrs. Alma John Woodson and children of Indianapolis, are the house guests of the former's brother, E. B. Ponnstone, and family for a few days.

Mr. and Mrs. David Elliott of near Shelbyville entertained Sunday Mr. and Mrs. Oscar Williams and son Stanley, Mr. and Mrs. Albert L. Updike of this county and their house guests, Mr. and Mrs. Jay E. Walker and daughter Charlotte of Indianapolis.

Mrs. Scott Hosier was hostess for the members of the Loyal Daughters class of the Main Street Christian church last evening at her home in East Eighth street. An in-

formal social party was enjoyed by the thirteen members present. A delicious salad course was served at the close of the meeting.

The Misses Stella Perkins and Pauline Addison gave a party Saturday at the home of the latter in Carthage, in honor of their fifth birthday anniversaries. Those present were Maxine Reddick, Joyce Kennedy, Helen Rawls, Sharlee Kyser, Louise Nelson, Georgina Perkins, Mary Ellen McCarty, Daniel Ellington, and Fred Keith Addison. Dainty refreshments were served at the close of the party.

The Woman's Missionary Society of the First Presbyterian church was entertained yesterday afternoon at the home of Mrs. J. L. Cowing in North Main street. Miss Mae Meredith had charge of the devotionals and Miss Georgia Morris prepared a very interesting paper on "India." The current events also were on "India." Delicious refreshments were served by the hostess during the social hour at the close of the program.

The home of Mr. and Mrs. Oliver Fletcher was the scene for a pleasant party Friday night when the members of the Inter Nos club and their families gathered to celebrate Mrs. Fletcher's birthday anniversary. Mr. and Mrs. Fletcher visited friends in Manila the early part of the evening and on their return home was pleasantly surprised on finding the house filled with guests. Mrs. Fletcher received a lovely gift from the club. A social time was enjoyed and at the close of the evening refreshments were served.

A pretty home wedding was solemnized at high noon today at the home of Dr. and Mrs. Frank Sparks in North Main street, when their daughter, Miss Marian Sparks, was united in marriage to Mahlon O. Davis, son of Mr. and Mrs. Charles Davis of Marion, Ind. The ring ceremony was performed by the Rev. C. S. Black, pastor of the St. Paul's M. E. church.

The home was appropriately decorated for the occasion with ferns and bouquets of garden flowers. The wedding ceremony took place before an altar of ferns and French baskets of cut flowers. Judge Will M. Sparks, uncle of the bride, played Mendelssohn's wedding march for the bridal procession and during the ceremony played softly "Believe Me. If All Those Endearing Young Charms." The bridal couple was unattended.

The bride was becomingly dressed in a pink georgette gown with a blue satin sash, and wore a corsage bouquet of Aaron Ward roses. Immediately following the ceremony a prettily appointed wedding dinner was served in the dining room. A large French basket of pink roses formed a beautiful centerpiece for the dining table and the two small tables were similarly decorated. The repast was served in two courses.

Only the members of the immediate families and friends were present for the wedding. Among the out-of-town guests were Mrs. Charles Davis and daughter Lucille of Marion, Ind.,

REFUSE TO CONSIDER IS FATALY WOUNDED PEACE PROPOSALS BY BRIDE OF 18 MONTHS

Mine Operators of Mingo Field Will Not Have Any Dealings With United Mine Workers

SUBMITTED TO GOVERNOR

(By United Press)
Washington, July 20.—Mine operators of the Mingo, West Virginia field refused to consider peace proposals submitted to Governor Morgan, of West Virginia, by the striking miners.
Through Harry Olmstead, a witness, before the senate inquiry into the Mingo mine war, the operators stated that if the governor submitted the miners proposals to them they would refuse to consider them.
"We will not have any dealings at any time with the United Mine Workers," said Olmstead.
"In the first place we have enough men to work our mines and are under contract to many of them to keep them as long as their work is satisfactory. Next, the mine workers want to seize our property."

ceeding with plans for blotting out the Sinn Fein.

- Among these proposals are:
1. Declaration of martial law in all Sinn Fein sections.
 2. Garrisons to be posted in all cities and towns and strong military forces put to patrolling the open country.
 3. All Irish citizens, in England as well as Ireland, to be registered, photographed and thumb printed. All citizens would be compelled on demand to show their identification papers.
 4. Extreme restrictions on even ordinary travel.
 5. Summary action against disloyal government employees.
 6. Passports to enter or leave Ireland.
 7. More drastic penalties for consorting with rebels.
 8. Increased effort to catch rebels "on the run".
- To make certain that authorities get in touch with everyone in Ireland, dragnets will be thrown out so that a cordon of troops will sweep through every action.

Mr. Divine, a representative of the Eureka hose company, appeared before the council, and told them that his firm would like to have the contract for 500 feet of hose that will be ordered soon. He went into detail about the qualities of his hose, stating that the best recommendation was the hose itself, that it was in use in the local fire department since 1911 and went through the fire here when the Carr building was destroyed.

Carl Kiroff, Indianapolis, Tells Police on Deathbed he Found Her With Another Man

WOMAN REGRETS THE DEED

Indianapolis, July 20.—Carl Kiroff died in a hospital here today with a bullet in his abdomen. On the deathbed he told police his bride of eighteen months shot him when he went home from work at 11.30 o'clock last night and found her with another man.
As the fellow ran, Kiroff said, he asked Nellie for the gun, but instead of giving it to him she raised it and fired one shot.
"Oh, I loved him, I loved him," sobbed the girl bride. "I wouldn't have shot him for the world. He went to strike me. I raised my hand and must have pulled the trigger."
"I loved him. Oh I wouldn't have shot Carl for the world!"
Mrs. Kiroff denied the statement that she was with another man.
Police placed her under a murder charge and she was locked in jail without bond.

TO TEAR SECRECY FROM DEBT REFUNDING PLAN

Powerful Combination of Senators Want People to Know How Loans Will be Paid

TWO PROVISIONS OUTLINED

Washington, July 20.—A powerful combination of senators has set out to tear away the veil of secrecy from the negotiations for refunding the \$10,000,000,000 debt Europe owes the United States.
They want the American people to know from day to day as the negotiations go on just what terms are being agreed to for the repayment of each loan.
Senators La Follette, Reed, Borah, Walsh, Mass., and others will fight to include in the pending bill authorizing refunding negotiations one or both of the following provisions:
1.—That as soon as an agreement has been made with one nation for repayment of that nation's debt and interest, a complete official copy of the agreement shall be sent the Senate for its information.
2.—That each agreement, as it is made, shall be submitted to the senate for ratification before coming effective.
Conditions in the European markets are similar to those now in force in this country. The depression there is extending under conditions of the severest competition. Many British blast furnaces and steel works are idle. Wages are being reduced for the first time in several years.

HEARINGS BEGIN WITH STATE BOARD

County Assessors From Rush, Delaware, Shelby and Marion Counties Appear Today

OVER PROPERTY VALUATIONS
 Will Determine if State Board Shall Raise or Lower Valuations as Fixed by Assessors

(By United Press)
 Indianapolis, July 20.—Hearings of county assessors on both real and personal property in their respective counties will be held by the state board of tax commissioners it was learned here today.

The hearings are to be held to determine whether the state board shall raise or lower the valuation of any real or personal property.

This action will be taken after the county boards of review have made a valuation of the property in their counties.

Should the state tax board make any changes in the valuations the auditor will re-convene the county board of review. The county board will then head the appeals of those who file objection to the new valuations and fix the final valuation.

The following dates for the assessors to appear before the state tax commission were announced:

July 20—Rush, Delaware, Shelby and Marion.

July 21—Gibson, Tippecanoe, Allen, Montgomery and Fountain.

July 22—St. Joseph, Laporte, Vanderburgh, Wabash, DeKalb, Miami, Henry, Knox, Cass, Adams, Bartholomew and Fayette.

July 23—Jay, Kosciusko, Lake, Vermillion, Putnam, Vigo, Wells, Whitley and Blackford.

July 25—Clay, Daviess, Jackson, Monroe, Morgan and Noble.

July 26—Martin.

Mayor of South Bend Complains About Volstead Law

(By United Press)
 South Bend, Ind., July 20.—Enforcement of the Volstead law in South Bend costs the city government \$150,000 a year, Mayor F. R. Carson said today, adding that "there is hope" the 18th amendment will be repealed.

The mayor made the statement in attacking "certain influential citizens who criticize the administration while stocking their own cellars to the limit."

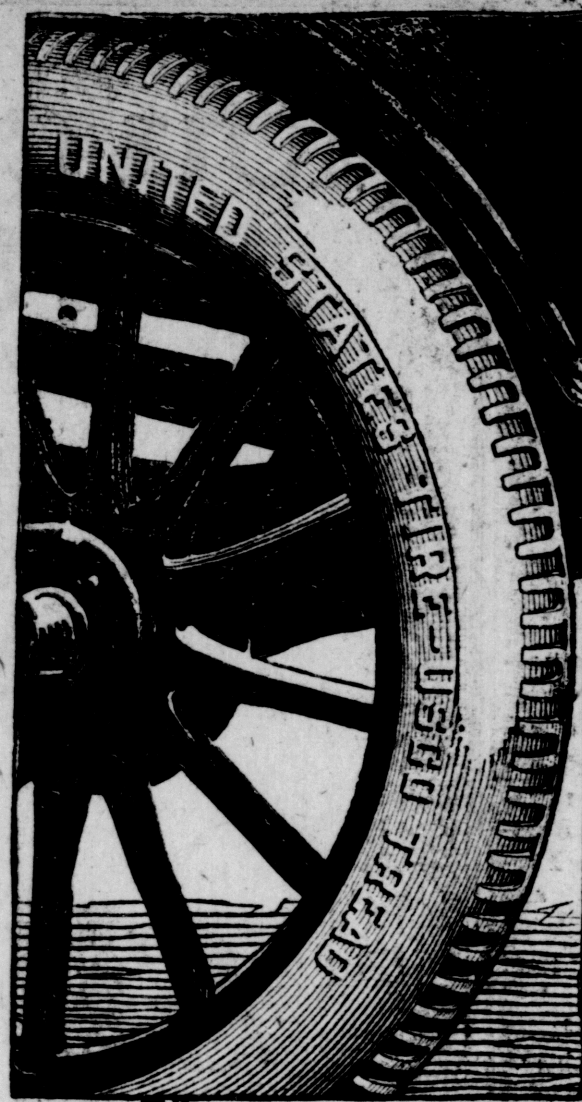

Ten policemen are detailed to the enforcement of prohibition alone, the mayor said, and they have worn out one automobile besides countless pairs of shoes in their hunt for the hooch maker.

The standard tire likes nothing better than to prove its service

PEOPLE used to be secretly envious of the young fellow who came tearing up the street and stopped his car with a jerk.

Now they are inclined to criticize such abuse of tires. A mark of the growing consciousness about tires—their service, their work, their value.

This same respect for a good tire is the reason why the four-square tire dealer has passed up odds and ends, "job lots", "seconds", "cut prices"—and come out squarely with the **standard quality service** of U. S. Tires.

He is getting a bigger, and also better, tire business than he ever had before.

He is dealing now with **his own kind**

TWO DAY OUTING FOR STATE REPUBLICANS

G. O. P. Editors Invite All Republicans to Meeting in Lake County on July 28-29

BUSY PROGRAM IS PLANNED

Indianapolis, Ind., July 20.—All Indiana Republicans, men and women, are invited by the Indiana Republican Editorial Association to attend the editors' outing in Lake County, Thursday and Friday, July 28 and 29.

The editors' schedule calls for the first meeting in Hammond at nine o'clock Thursday morning, July 28, with luncheon at East Chicago Thursday noon. The afternoon will be spent visiting the industries at Gary with a banquet in Gary Thursday evening, at which Governor McCray, Senator Watson, Senator New and other party leaders will speak.

The following day the sand dune region will be visited, with luncheon at the Lake Shore Club, after which a visit to the Michigan City Prison will be made, where dinner will be served in the evening. Members of the party who desire will go to Chicago by boat Friday evening to attend the opening of the Chicago Industrial Exposition on Saturday as special guests of Mayor Thompson.

Many Republicans will motor to Lake County while those going from Indianapolis will take night sleepers Wednesday evening, July 27th. Reservations indicate large attendance and Republicans desiring to accept

this invitation should notify E. J. Hancock, of Greensburg, President of the Association, or F. E. Schortemeier, Indianapolis, Secretary of the Republican State Committee.

TO ESTABLISH A NEW NATION

Sixty Thousand Mennonites, Members of Religious Sect, Flee to Paraguay in S. A.

DON'T FAVOR ANY WAR

Propose to Escape Fighting and Trouble and Set up Government of Their Own

(By United Press)

Buenos Aires July 20.—The greatest religious exodus since the children of Israel fled from Egypt is just getting under way.

Sixty thousand Mennonites, members of a religious sect which doesn't believe in war are fleeing to Paraguay from the United States and Canada.

They propose to establish their own nation within Paraguay and manufacture and sell goods. United States capital is said to back them.

Members of this sect had trouble during the war with Germany when they objected to going into the American and Canadian armies. So they decided to shake the dust of those countries off their feet and move to Paraguay.

Fred Engan, a Minnesotan, representing the Mennonites today obtained an option from the Paraguayan government on three million acres. The Paraguayan government yesterday passed a law exempting sons of the Mennonites from military service.

Six representatives of the sect have just completed a tour of several weeks through the territory they propose to settle on.

At present, it is inhabited only by Indians, and some portions of it have not been visited by the whites since 1535, when the Spaniards crossed from Buenos Ayres.

The Mennonites representatives say they intend to build railroads and secure an outlet for their products through the Paraguay river. It is reported they are backed by the National City Bank of New York.

SUB-COMMITTEES TO COLLECT STATISTICS

League Members Decide The Data May be Helpful to Disarmament Conference in Washington

ONE COMMISSION ADJOURNED

(By United Press)

Paris, July 20.—President Harding's disarmament proposals have supplanted the strength of the league of nations commission appointed to study the subject, according to indications here today.

Three sub-committees met but decided that the most helpful thing they can do is collect statistics on naval and land strengths and other information bearing on the subject with the possibility that the data may be helpful to the conference in Washington.

Much information already is at hand. Some of it is confidential and is said to bear on the secret attitude of various governments toward disarmament. This will be compiled in a series of tables and representatives so as to be available for the conferees who respond to Harding's invitations.

One of the sub commissions adjourned immediately after the sessions and will not meet again until September. The others after directing the compilation of their reports are expected to follow the example.

REINSTATE OLD EMPLOYEES

No Examination Required For Old Postal Men, Hays Rules

Ex-employees of the postal service who have been out of service for a period of less than five years, will be reinstated without examination, according to a ruling of Postmaster Hays, just made public. The former rule was that no employee could be reinstated without submitting to another examination. Mr. Hays' ruling permits the civil service commission and the appointing officer, usually the postmaster, to reappoint ex-employees after an absence corresponding in time to the length of time he was in service, or less, up to five years' absence.

There will be an ice cream social given by the ladies on the St. Mary's Catholic church lawn Thursday night. Refreshments of ice cream, cake and home made candy will be offered for sale. Everyone is cordially invited.

DISCUSS RAIL FINANCES

Pres. Harding, Mellon and Cummins Confer at White House

(By United Press)

Washington, D. C., July 20.—Railroad finances were discussed at the White House Tuesday by President Harding, Secretary of the Treasury Mellon, Secretary of Commerce Hoover and Senator Cummins of Iowa.

It was understood that the cabinet officers and Senators took up a plan of paying the government debt to

the railroads at the same time allowing their railroads to refund their debt to the government so that it could be paid over a series of years.

Two Million Farmers Hope to Bring

Ford's Line

WOULD LOWER THE H. C. L.

(By United Press)

Washington, July 20.—Two million farmers affiliated with the National Board of Farm organization are marshalling their influence to force all railroads to follow the example of Henry Ford and reduce freight

rates, Secretary Lyman of the board announced today.

Lyman applauded Ford's action in asking the Ohio utilities commission to reduce freight rates 20 per cent on Ford's railroad, the Detroit, Toledo and Ironton.

"Freight rate reductions would slash prices of produce to the city consumer," said Lyman.

Acting for the Iowa farmers union, Senator Kenyon today planned to introduce in congress a petition signed by more than 2,000 farmers demanding freight rate reductions. According to the petition, approximately \$1,700,000,000 now could be cut from the operating costs of the roads.

SENATORS TO BE ON U. S. DELEGATION

Senate Will be Represented at Disarmament Conference it Was
Stated Definitely

TO AVOID ANY CONFLICT

(By United Press)

Washington, July 20.—The United States senate is certain to be represented on the American delegation at the forthcoming disarmament conference, it was stated definitely on high authority.

Just what senator or senators will be named on the American delegation was not revealed. Senators Borah, Lodge and Knox have been mentioned.

It was also stated that the decision has not been reached whether both political bodies will be named to the delegation.

The discussion for representation of the senate was regarded as an intention on the part of President Harding to avoid any conflict with that body in reaching a possible agreement with other nations such as President Wilson experienced.

REPAIRS LONG BRIDGE NEAR MARTINSVILLE

State Highway Department Makes Repairs in Highway in Order to Keep Traffic Open

STATE WILL RECEIVE BIDS

Indianapolis, Ind., July 20—With the idea of keeping an immense concrete bridge across White river at Martinsville in sustained use in order that traffic on one of the main state roads will not be subjected to long detour, the state highway department is engaged in strengthening one of the piers, Lawrence Lyons, director, announced today.

Proposals for the repair of this structure will be received sometime in August, and in the meantime engineers of the department are seeing to its safety. Last spring this bridge showed evidence of deterioration and one of the spans settled. Temporary repairs were made. In the meantime the structure has again settled. Under specifications for its repair the bridge will be jacked up and put back to its proper elevation and weakened piers replaced.

This bridge is on one of the main highway arteries in the state road system and is on Road 22 between Indianapolis, Martinsville, French Lick and Evansville. The road is the chief trade route into Martinsville, and from this fact every effort is being made to keep continuous traffic passing over the structure.

Marshal Foch Expects to Visit in Each State While Here

Paris, July 20— Marshal Foch is looking forward to his visit to America in October. Ever since he lead American troops in battle he has been anxious to visit the land that sent them over the Atlantic to fight in France, he said.

"Marshal Foch will attempt to visit every state", said the marshal's aide, "though naturally he can stop in only the large cities.

The marshal's itinerary includes October 31 in Kansas City and Armistice Day in Washington.

Simple changes in the shape of the handles of knives used in the packing industry are said to have lessened the accidents to workers caused by their hands slipping by 90 percent.

BUFFALO BANKS ARE BEING HEAVILY ARMED

Sharpshooters Armed With Automatic Rifles on Guard to Frustrate Possible Attacks

ADDITIONAL NIGHT GUARDS

Buffalo, N. Y. July 20—Due to the number of increasing bank robberies throughout the United States, Buffalo banking institutions have installed many safety devices to insure against robbery.

Sharpshooters armed with automatic rifles, barricaded in an armor plate cage above the corridor of the Federal Reserve Bank, are on guard to frustrate possible attacks by armed bandits.

The "pill box" contains seven loop holes and looks like a world war fortification. Any point in the bank is a target for the man in the cage.

Additional night guards have been placed in banks and they are now armed with sawed-off shot guns.

Besides visible means of warding off attacks the banks have installed secret appliances that would bring police instantly to the bank where an attack was made and other appliances that would trap the robbers.
